

ANSMANN Li-Ion battery 26650 type 5100 (min. 4950 mAh) with USB-C charging socket

26650 Li-Ion rechargeable battery – 3,6 V / type 5100 (min. 4950 mAh) / 18,36 Wh – battery protected with safety circuit.

Features

- High quality ANSMANN Lithium battery 26650 with safety board and integrated USB-C charging socket. The charging current is limited internally to max. 1A.
- Easy charging of the battery with a standard USB-C charging cable. A PC, a power bank or a USB power supply (5V) can be used as power supply. Alternatively, the battery can also be charged with a lithium charger (max. 5A charging current).
- There is a charge status LED on the positive pole of the battery. This flashes red during charging. When the battery is fully charged, it lights up red continuously.
- Ideal for use in modern LED flashlights, headlamps, laser pens, etc.
- Integrated protection circuit against overload, short circuit and deep discharge
- Very low self-discharge and high energy density
- 2 years warranty

USB Type-C charging

Up to 2000 charging cycles

Safety board inside

Low Self Discharge

Article number: 1307-0012

Product content: Lithium rechargeable battery type
26650 / 5100 mAh

Specifications

Nominal voltage	3,6 V
Cell size	26650
Cell chemistry	Lithium ion
Nominal capacity	5100 mAh
Minimum capacity	4950 mAh
Number of cells in packaging	1
Fast charging	Yes
Charging cycles	300
Max. Continuous discharge current	20 A
Port	USB-C
Energy	18,36 Wh
Charging current USB	1A
suitable for	LED torches, headlamps, e-cigarettes, etc.
Color	white / purple
Packaging	cardboard box
Operating temperature	-20 - 60 °C
Storage temperature	-10 - 25 °C
Dimensions	26.7 × 26.7 × 71.5 mm
