

ANSMANN Li-Ion battery 21700 type 5000 (min. 4900 mAh) with USB-C charging socket

21700 Li-Ion rechargeable battery – 3,6 V / type 5000 (min. 4900 mAh) / 18 Wh – battery protected with safety circuit.

Features

- High quality ANSMANN Lithium battery 21700 with safety board and integrated USB-C charging socket. The charging current is limited internally to max. 1A.
- Easy charging of the battery with a standard USB-C charging cable. A PC, a power bank or a USB power supply (5V) can be used as power supply. Alternatively, the battery can also be charged with a lithium charger (max. charging current).
- There is a charge status LED on the positive pole of the battery. During charging, this LED lights up red; when the battery is fully charged, it switches to green.
- Ideal for use in modern LED flashlights, headlamps, laser pens, etc.
- Integrated protection circuit against overload, short circuit and deep discharge
- Very low self-discharge and high energy density
- 2 years warranty

USB Type-C charging

Up to 2000 charging cycles

Safety board inside

Low Self Discharge

Article number: 1308-0001

Product content: Lithium rechargeable battery type
21700 / 5000 mAh

Specifications

Nominal voltage	3,6 V
Cell size	21700
Cell chemistry	Lithium ion
Nominal capacity	5000 mAh
Minimum capacity	4900 mAh
Number of cells in packaging	1
Fast charging	Yes
Charging cycles	2000
Max. Continuous discharge current	5,2 A
Port	USB-C
Energy	18 Wh
Charging current USB	1500 mA
suitable for	LED torches, headlights, laser pens, etc.
Color	white / purple
Packaging	cardboard box
Operating temperature	-20 - 60 °C
Storage temperature	-10 - 25 °C
Dimensions	78 × 22 × 22 mm
